*Discover Your Career, Find Your Passion*

PCS offers the MAPP (Motivated Appraisal of Personal Potential) career test which is the first and most comprehensive career assessment. More than 8 million people in nearly every country in the world have taken the MAPP test since its inception in 1995. In over 53 countries, and in 15 different languages, the MAPP test has helped people find a vocation where they can fully use their unique aptitudes and talents.

It has provided a roadmap for:

- ★ Students who are figuring out what they want to be.
- ★ Adults who are unhappy in their jobs and want to make a career change, and
- ★ People who are unemployed and want to establish their next career step.

More than 3,500 partners, including career counselors, coaches, outplacement firms, universities and high schools use the MAPP to gain insights and counsel their current and prospective students and clients.

Put the right person in the right job, and you reduce turnover and risk, just as it was originally designed to do years ago.
